Projects

KomiCK – Find and rate your Comics and Novels | NodeJS , ReactJS , MONGODB,ML Oct' 2025

- Developed a full-stack web application that enables users to discover, rate, and review comics, manga, manhua, and novels.
- Implemented a machine learning–based recommendation system that suggests content to users based on their ratings and preferences using collaborative filtering and data analysis techniques.
- RESTful APIs to manage user authentication, ratings, and content data, and integrated a database for efficient storage and retrieval.
- **Github link : KomiCK**

STRIDE SYNC - Run smarter with data | ReactJS, ChartJS, LeafletJS,NodeJS,MONGODB Sep' 2024

- Built a full-stack web application to track running activities with real time GPS-tracking and provide detailed performance analytics including distance, pace, duration, and running history.
- Developed Implemented backend APIs for storing and managing activity data and integrated a database for efficient data retrieval.
- Designed an interactive and responsive user interface and added data visualization to help users monitor progress and improve performance.
- Implemented secure user authentication with hashed and salted passwords, session management, and connect-flash.
- Plan to integrate AI-based performance prediction and personalized training recommendations based on user running data.
- **Github Link** : STRIDE SYNC

Experience

SWASTA | Swasta.life

July' 2025

- Completed an freelancing project for a startup company.
- Developed using NodeJS, MongoDB and TailwindCSS featuring secure user authentication, modular data management, and a scalable backend structure that supports spaced repetition, progress history, and email and whatsApp based notifications .
- Created a robust experience for clients using the website for therapy and healthcare related consulting .
- TECH STACK : HTML, TailwindCSS, JavaScript, ReactJs, NodeJS , MongoDB

Certificates / Certifications

Human Computer Interaction May' 2025
NPTEL — *Certificate Link*

Interpersonal skills for engineering leaders Aug' 2025
COURSERA — *Certificate Link*

Complete JavaScript bootcamp Feb' 2024
U D E M Y — *Certificate Link*

Skills

Languages: Java, JavaScript,C/C++,Python

Technologies/Frameworks: React.js, Node.js, Git, GitHub ,Next.js, OpenCV, Tensor Flow

Core Skills: Data Structures & Algorithms, Object-Oriented Programming, Problem-Solving, Responsive Web Design, Scripting with Python & JavaScript

Education

Lovely Professional University **2023 – 2027**
Bachelor of Technology - Computer Science and Engineering — CGPA: 7.3 *Phagwara, Punjab*

First Step School **2021– 2022**
12th — Percentage: 73% *chindwara, MP*

First Step School **2019 – 2020**
10th — Percentage: 92% *chindwara,MP*
